

# Smart Manufacturing shaping with Fujitsu

FUJITSU Manufacturing Industry Solution COLMINA / Virtual Obeya Knowhow share

New Product    Advanced Technology    in-house practice

## Customer Benefits

- Facilitating digital transformation at customers
- Creating new value and boosting competitiveness

- (1) Improving design and quality, maintaining manufacturing quality and improving productivity** with a mechanism for sharing information and know-how beyond departmental boundaries
- (2) Improving productivity and quality in a short time** through visualization, analysis and prediction, and control by accumulating information needed to solve problems and processing such information for integration, division, and comparison.
- (3) Achieving higher dimensionality supply chain** by managing situations not only in the customer's own factories, but in other factories including those of suppliers
- (4) Ascertaining and optimizing the entire manufacturing (process)** by integrating information of each facility beyond the differences in manufacturer and model

## ◆ Demonstration exhibition

**Case Study on Factory Cyber Physical System (CPS)**

**Connected manufacturing platform**

**Making good use of manufacturing knowhow to improve product development**
