FUJITSU

Mobile security from Fujitsu Kensington Lock

Why Kensington locking systems?

Notebooks have become an invaluable asset for employees around the world. All the facts that makes notebooks so useful to employees, also makes them valuable prizes for thieves.

Why Kensington Master Access?

Give individual employees the power to protect their notebooks. Personal locks let employees work on- or off-site and protect notebooks no matter where they do business.

Master Access Benefits:

- With a master key, your IT staff retains universal access to unlock any piece of equipment for upgrades, relocation or replacement.
- Master keys also offer a quick and easy solution for misplaced or lost keys requiring new locks.
- Manage and maintain a limitless number of locks with a master key.
- Accommodate personnel changes with an easy, efficient master key solution.

Master Access locking systems

Customized Master key solutions on demand

- Show rooms

Fujitsu products with Master Access solution available for...

MicroSaver DS Ultra thin

The Ultra Thin Notebook Lock is designed for the ultimate defence of even the thinnest notebook. The nearly impenetrable disk style keyed locking mechanism provides high security.

MicroSaver slim

Locks into the standard Kensington security slot of notebooks and many flat panel monitors, CPUs, projectors, printers, docking stations, tablet PCs, and other devices.

MicroSaver Twin Notebook Lock

Protect your notebook and monitor with this double lock-head security system. Patented T-bar locking mechanism and super-strong carbon tempered steel cable provide maximum protection.
