BS2000 Mainframe Training Courses and Services

Fujitsu Technology Solutions GmbH

are pleased to present the BS2000 topics covered at the Enterprise Platform Services Academy

Course Schedule for 2020

We offer partners, customers and our own employees a comprehensive range of technical training courses for experts by experts, covering all of the company's core topics in a modern hardware and software environment.

In addition to standard training courses, we can also offer courses tailored to your specific requirements. These can be held either at our training center in Augsburg or on your company's premises.

Our schedule is complemented by a variety of service packages, for example in the area of consulting and coaching by our experts.

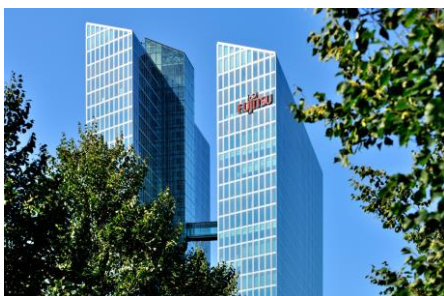

For dates and prices, please check our [Training BS2000](#) course overview, where you will find a list of our current courses and the online forms you will need to register for our BS2000 courses. For any special requests you can contact your sales contact or us.

Exclusive for NEXT-Members: 15 % discount on training services from Fujitsu

Members of the NEXT user association will receive a 15% discount on the prices listed online when they book training courses at the Fujitsu Training Academy.

For inquiries about customized training courses, you can also contact the EPS Academy directly:
