Data Sheet

FUJITSU Desktop ESPRIMO D958

Combines High Efficiency with Manageability

The FUJITSU ESPRIMO D958 Desktop provides maximum manageability, performance and expandability. Up to 9th Gen Intel® Core™ processor and Intel® vPro™ technology, combined with the DeskView manageability suite support professional computing and advanced manageability. The low-noise design supports a pleasant working environment. Its innovative Low Power Active Mode feature ensures instant communication in the office. The high production quality helps extend the product lifetime and 94%-efficient power supplies reduce your energy bills. Finally, the Fujitsu EraseDisk function ensures your data is securely wiped on retirement.

Expandability

Easily customizable and highly expandable business desktop PC

- 10 I/O housing, more I/O slots, serial connector to help you build your own desktop systems, tailored to your specific business needs

Low Noise Design

Pleasant working environment due to an extremely quiet system

- Innovative hardware design, optimized cooling concept ensures silent operations

Always Available Office PC - stay connected and save power

Be ready for instant communication and a significantly reduced energy bill

- Innovative Low Power Active Mode and energy-efficient integrated power supply

Superior system management

Simple system administration for complex IT infrastructures

- Intel® vPro™ technology (depending on processor) and DeskView manageability suite

Easy serviceability and usability

Features designed for easy access, control and use of the system

- Tool-less access to components; front connectors and interfaces for ease of use with USB Type-C (USB 3.1 Gen2) front connector
