Fujitsu recommends Windows 10 Pro.

Data Sheet
FUJITSU Notebook LIFEBOOK U937

Your Light Yet Powerful Business Companion

With its extraordinarily light design, weighing only 920g and an all-day battery runtime, the Fujitsu Notebook LIFEBOOK U937 is an ultra-mobile notebook for business professionals who are always on the move. The solid magnesium housing ensures durability while security features such as the integrated palm vein sensor keep your business data protected. The powerful performance and the optional embedded 4G/LTE provide you with best-in-class user experience.

Outstanding ultra-slim and robust design
Extraordinarily lightweight design for business professionals who are always on the move
- A remarkably slim 15.5mm notebook weighing only 920g with a robust magnesium housing
- The best viewing experience is guaranteed by an anti-glare 13.3-inch FHD (1920 x 1080) display, optionally with glare touch

Ultimate security features
Protect your notebook and business data from unauthorized access at all times
- Embedded palm vein or fingerprint sensor, SmartCard reader, TPM 2.0

Excellent connectivity
Be flexible and stay productive in a hyper-connected world
- Full set of interfaces with a full-sized HDMI, full-sized LAN connector and USB Type-C
- Embedded WLAN, Bluetooth, optional 4G/LTE and DDR4 memory technology up to 20 GB

Convenient mobility on the go
Highest productivity on business trips
- All-day battery runtime offers you exceptional mobility that you need when on the move
- Anytime USB Charge functionality to charge telephones and other media devices even when the system is turned off
- Powerful performance, thanks to integrated SSDs, helps process data faster

### Battery notes

Battery runtime information is based on worldwide acknowledged BAPCo® MobileMark® 2014 (office productivity). Refer to www.bapco.com for additional details. The BAPCo® MobileMark® Benchmark provides results that enable direct product comparisons between manufacturers. It does not guarantee any specific battery runtime which actually can be lower and may vary depending on product model, configuration, application and power management settings. The battery capacity decreases slightly with every re-charge and over its lifetime.

### Noise emission
