

Data Sheet

FUJITSU Accessory MicroSaver® Twin Security Theft Protection

Secure up to 2 devices of computer equipment

The FUJITSU Kensington MicroSaver Twin allows you to protect both your notebook and display with this double lock-head security system. The patented T-bar locking mechanism and super-strong carbon tempered steel cable provide maximum protection. The MicroSaver Twin is available with Kensington Master Access so you can manage a limitless number of locks with a master key.

Features

- Lock two pieces of computer equipment (Notebook, Flat Screen Monitor, LCD Projector, Docking Stations, CPUs...) by inserting the locks into the Kensington Security Slot
- One lock slides along the 2.2 m cable to allow adjustment of distance between two units
- Small size of the lock doesn't give thieves space to grips lever and break the lock out of the slot
- Strongest locks, just like the original MicroSaver with patented T-Bar theft protection

Reliability

- Lock two systems, e. g. notebook and docking station, notebook and projector, or notebook and external LCD display
- Strongest locks, just like the original
- MicroSaver® with patented T-bar theft protection
- One slideable lock on the 2.20 m cable for adjustment of the distance between two units
- Fits in any Kensington security slot

MicroSaver® Twin
