## FUJITSU Accessory PalmSecure F Pro Mouse Security Access Protection

Maximize your security

Fujitsu's highly secure and easy to use PalmSecure F Pro Mouse captures an individual's palm image with a near-infrared light. The user simply places the palm of the hand above the sensor, which captures a unique image the blood flowing in the user's veins. Once that image is captured you can securely login with just your hand.

### Security

- Highly secure biometric solution through palm vein authentication. It provides a powerful combination of strong biometric authentication for log-in security, access management and data protection for both client and enterprise environments.

### Usability and Ergonomics

- PalmSecure is effortless to use. Simply hold the palm over a small infrared scanner and within a second the identity is verified. Because the system is contactless it is completely hygienic.

### Designed for stand alone use

- Provides an off the shelf biometric identification device integrated in a USB laser mouse
