

Data Sheet

Fujitsu Comfort Sensor CS300

Keeping your data safe and secure

With Fujitsu's Comfort Sensor CS300 you can increase comfort and security in your daily work life. The CS300 is a small USB device which is able to detect user presence with the two IR sensors on the front of the system. This device automatically sets your display on standby when leaving your workplace, protecting your display from unauthorized viewers. When you arrive back at your desk, it can wake up the display or even the entire system, depending on your settings.

Easy Usability

- Simple and intuitive design
- No driver installation

Keep your data safe

- Simple and intuitive design
- No driver installation
