

Data Sheet

FUJITSU Server PRIMEQUEST 2400E3

No Time for Downtime

Combining the power of Intel® Xeon® Processor E7 product family, the standard specifications of Microsoft Windows and Linux operating systems and the wealth of market solutions with innovative fault immune system architecture for highest availability and business continuity, FUJITSU Server PRIMEQUEST systems provide a new operational efficiency for business and mission-critical computing with truly open standards and to deliver highest performance. FUJITSU Server PRIMEQUEST systems combine the efficiency of an x86-architecture with the reliability levels rivaling that of a UNIX/mainframe architecture. This makes it ideal for processing big data, in-memory solutions such as SAP HANA® and business intelligence applications.

need for a reboot of the system.

PRIMEQUEST 2400E3

FUJITSU Server PRIMEQUEST 2400E3 is the prime system for economic mission-critical computing. It unifies the economic and flexibility benefits of x86 industry standard systems with mission-critical uptime features. Customers will thus continuously benefit from a radically optimized cost effectiveness compared to UNIX/Mainframe-based enterprise platforms, while preserving all the RAS qualities so that the system always remains active. Featuring four of the Intel® Xeon® processor E7-8800 v4 product family provided with up to 96 cores and 12TB DDR4 memory, the PRIMEQUEST 2400E3 provides unprecedented performance and memory capacity for demanding corporate databases, mission-critical applications and in-memory database solutions. Mission critical features also enable outstanding platform reliability with innovative error prevention and self-healing capabilities, such as a reserved system board, flexible hot-plug I/O as well as physical hardware partitioning (PPAR). Moreover, unique features, such as Dynamic Reconfiguration enable the efficient use of available resources while simplifying resource management without any

Features & Benefits

| Main Features | Benefits |
|---|--|
| <p>Operational efficiency</p> <ul style="list-style-type: none"> ■ Combines x86 industry standard with mission-critical features ■ Eliminate costs related to the UNIX world ■ New levels of energy efficiency <p>Mission critical uptime leads to highest availability values in the x86 industry standard</p> <ul style="list-style-type: none"> ■ Different partitioning available: From software partitioning to completely isolated physical partitioning ■ Up to two physical partitions (PPAR): Failures of one partition do not influence other partitions ■ Active reserved system board for fast automatic recovery of services, in many cases without downtime ■ Flexible I/O ensures availability of PCIe devices ■ Almost everything is redundant ■ Online maintenance <p>Dynamic platform for demanding applications</p> <ul style="list-style-type: none"> ■ 4x Intel® Xeon® processor E7-8800 v4 family with up to 96 cores ■ 96 DIMM slots enable a configuration of up to 12TB memory ■ 'Glue-less' design, no external QPI cables ■ Many I/O expansion options for up to 56 PCIe slots ■ Dynamic Reconfiguration enables changes in the configuration of resources and system boards without stopping the application | <ul style="list-style-type: none"> ■ Unity of x86 efficiency and flexibility with mission-critical availability ■ Lower license fees and software maintenance costs for Oracle databases <ul style="list-style-type: none"> ■ Flexible platform to best meet individual requirements ■ Business continuity ensured even if there is a failure in one of the partitions ■ Its built-in error prevention/correction and self-healing capabilities result in outstanding platform reliability ■ All serviceable system modules can be accessed from the front or rear of the system without any cabling hassle. Moreover, Dynamic Reconfiguration enables online maintenance without the need for restarts or planned downtimes <ul style="list-style-type: none"> ■ Unprecedented performance and memory capacity for demanding corporate databases, in-memory solutions and mission-critical applications ■ I/O throughput ensured ■ Efficient usage of available resources and simplified resource management without any need for restarts |

Technical details

| | | | | |
|---|--|-----------------|---|--------------------|
| Mainboard type | up to 2 x Systemboard | | | |
| Processor quantity and type | 1 - 4 x Intel® Xeon® processor E7-8800 v4 product family | | | |
| Memory slots | 96 Max. 12 TB | | | |
| Memory slot type | DIMM (DDR4) | | | |
| Memory capacity (min. - max.) | 16 GB - 12 TB | | | |
| Memory protection | ECC Advanced ECC Memory Mirroring support Address Range Memory Mirroring support DDDC (Double Device Data Correction) | | | |
| Memory notes | Up to 96 DIMM slots per server within 2 system boards, each equipped with 2 Memory Mezzanine cards. 12TB on special release. | | | |
| Memory modules notes | Memory modules will be delivered in set's of 2 DIMMs per order code | | | |
| Interfaces | | | | |
| Graphics (15-pin) | 2 x VGA (1x per SB) | | | |
| Management LAN (RJ45) | Dedicated Service LAN port for MMB (10/100 Mbit/s) | | | |
| Onboard or integrated Controller | | | | |
| RAID controller | RAID 0/1 or RAID 5/6 controller integrated in System board and/or Disk Unit (option) Options are described under Components RAID controller | | | |
| LAN controller | LAN controllers are integrated in optional I/O units, details are described under I/O options | | | |
| Remote management controller | PQ2000 Management Board (MMB) | | | |
| Service Processor | | | | |
| General | Management Board (MMB), located on the rear side of the system. 2nd MMB as option | | | |
| Interfaces | For Maintenance: - Local: 10/100M RJ45 for local maintenance. - Remote: 10/100M RJ45 for REMCS, AIS-Connect, ACA and ServiceLink connection (Remote monitoring service). For Management - 0/1 10M/100M/1G RJ45 | | | |
| Redundancy | Up to two MMB unit can be installed in one chassis. 2nd MMB for redundancy is optional. 2nd MMB is not supported at Business model (2800B). | | | |
| I/O options | | | | |
| Type | LAN ports | based on | number of PCIe slots | Max. number |
| I/O Unit 10GbE full-height | 2 x 100/1000 Mbit/s / 10 Gbit/s Ethernet (RJ45) | Intel® X540-AT2 | 2x PCIe Gen3 full height / 1x PCIe Gen3 low profile | 4 |
| I/O Unit 1GbE low-profile | 2 x 10/100/1000 Mbit/s Ethernet | Intel® I350-AM2 | 4x PCIe Gen3 low profile | 4 |
| Drive bays | | | | |
| Storage drive bays | 2.5-inch hot-plug SAS | | | |
| Storage drive bay configuration | Max. 16 x 2.5-inch | | | |
| General system information | | | | |
| Number of fans | 6 | | | |
| Fan configuration | hot plug | | | |
| Fan notes | PSU cooling fan will be used as chassis cooling facility | | | |
| Operating panel | | | | |
| Status LEDs | System status (orange / yellow) Power (amber / green) Identification (blue) | | | |

RAS Features

| | |
|-------------------------|--|
| Standard | SDDC, ECC, redundant fans and power supply |
| Advanced | Intra-socket memory mirroring, MCA, DDDC |
| Mission-Critical | Reserved SB, flex IO, Dynamic Reconfiguration, red. MMB, hot-plug PCIe |

Operating Systems and Virtualization Software

| | |
|---|---|
| Certified or supported operating systems and virtualization software | Windows Server 2019 Datacenter |
| | Windows Server 2019 Standard |
| | Hyper-V Server 2016 |
| | Windows Server 2016 Datacenter |
| | Windows Server 2016 Standard |
| | Hyper-V Server 2012 R2 |
| | Windows Server 2012 R2 Datacenter |
| | Windows Server 2012 R2 Standard |
| | VMware vSphere™ 6.5 |
| | VMware vSphere™ 6.7 |
| | VMware vSphere™ 6.0 |
| | SUSE® Linux Enterprise Server 12 |
| | SUSE® Linux Enterprise Server 11 |
| | Red Hat® Enterprise Linux 7 |
| | Red Hat® Enterprise Linux 6 |

| Operating system notes | Not all OSes, OS versions and server functions will be released at server release. For details refer to link below. |

Server Management

| | |
|-----------------|--|
| Standard | <ul style="list-style-type: none"> ServerView Suite - Maintain <ul style="list-style-type: none"> Remote Management (iRMC in combination with Intel® Node Manager) Update Management (BIOS, Firmware, Windows Drivers, Agents and CIM Providers) Performance Measurement Asset Management Online Diagnostics ServerView Suite - Integrate <ul style="list-style-type: none"> Integration packs for Microsoft System Center, VMware vCenter, VMware vRealize, Nagios, and HP SIM Deployment tools and others ServerView Suite - Deploy <ul style="list-style-type: none"> SV Installation Manager ServerView Suite - Control <ul style="list-style-type: none"> Operations Manager incl. PDA and ASR & R Agents and CIM Providers / Agentless Service System Monitor RAID Manager Capacity Management Power Management Storage Support |
|-----------------|--|

Dimensions / Weight

| | |
|-------------------------|--|
| Rack (W x D x H) | 445 x 782 x 438 mm |
| Height Unit Rack | 10 U |
| 19" rackmount | Yes |
| Weight | Up to 128 kg |
| Weight notes | Fully assembled Actual weight may vary depending on configuration |

Environment

| | |
|--------------------------------------|-----------|
| Operating ambient temperature | 5 - 35 °C |
|--------------------------------------|-----------|

| Environment | |
|--------------------------------------|---|
| Operating relative humidity | 20 - 80 % |
| Maximum altitude | 3.000 m |
| Operating environment | FTS 04230 – Guideline for Data Center (installation specification) |
| Operating environment link | http://docs.ts.fujitsu.com/dl.aspx?id=e4813edf-4a27-461a-8184-983092c12dbe |
| Noise emission | Measured according to ISO 7779 and declared according to ISO 9296 |
| Sound pressure (LpAm) | 60db, 69dB(80 Plus Platinum) |
| Sound power (LWAd; 1B = 10dB) | 7.8B, 8.7B(80 Plus Platinum) |
| Electrical values | |
| Power supply configuration | Up to 4 hot plug power supplies. Base unit equipped with 0 power supplies, redundancy as option. |
| Max. input of single power supply | 3200 W / 1600W (240 V / 100V) |
| Power supply efficiency | 94 % (80 PLUS platinum) 89 % |
| Hot-plug power supply redundancy | Yes |
| Rated voltage range | 100 V - 240 V |
| Rated frequency range | 47 Hz - 63 Hz |
| Rated current max. | 65A / 29A (100 V / 240 V) |
| Rated current in basic configuration | 7,2A |
| Active power (max. configuration) | 3,579 W |
| Heat emission (max. configuration) | 12884.4 kJ/h (12212.0 BTU/h) |
| Compliance | |
| Global | CB RoHS (Substance limitations in accordance with global RoHS regulations) WEEE (Waste electrical and electronic equipment) - planned |
| Europe | CE Class A * |
| Japan | VCCI |
| Compliance link | https://sp.ts.fujitsu.com/sites/certificates |
| Compliance notes | There is general compliance with the safety requirements of all European countries and North America. National approvals required in order to satisfy statutory regulations or for other reasons can be applied for on request. * Warning: This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures. |

Components

More information

Fujitsu products, solutions & services

In addition to FUJITSU Server PRIMEQUEST 2400E3, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

Fujitsu Portfolio

Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation's reliability.
