No Time for Downtime

Combining the power of Intel® Xeon® Processor E7 product family, the standard specifications of Microsoft Windows and Linux operating systems and the wealth of market solutions with innovative fault immune system architecture for highest availability and business continuity, FUJITSU Server PRIMEQUEST systems provide a new operational efficiency for business and mission-critical computing with truly open standards and to deliver highest performance. FUJITSU Server PRIMEQUEST systems combine the efficiency of an x86-architecture with the reliability levels rivaling that of a UNIX/mainframe architecture. This makes it ideal for processing big data, in-memory solutions such as SAP HANA® and business intelligence applications.

**PRIMEQUEST 2800E Mission Critical**

Fujitsu’s PRIMEQUEST 2800E unite the economic and flexibility benefits of x86 industry standards with mission-critical uptime features. Customers will thus immediately benefit from a radically optimized cost effectiveness against comparable UNIX-based enterprise platforms, while preserving all the attributes so that the system always remains active. Featuring eight of the Intel® Xeon® processor E7-8800 v2 product family which deliver up to 120 cores and 12TB memory, the PRIMEQUEST provides unprecedented performance and memory capacity for demanding corporate databases, mission-critical applications and in-memory solutions. Mission critical features also enable outstanding platform reliability with innovative error prevention and self-healing capabilities, such as Reserved System Board, Flexible I/O as well as logic physical partitioning (PPAR). Moreover, unique features, such as Dynamic Reconfiguration enable the efficient use of available resources while simplifying resource management without any need for a restart.
## Features & Benefits

<table>
<thead>
<tr>
<th>Main Features</th>
<th>Benefits</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Operational efficiency</strong></td>
<td></td>
</tr>
<tr>
<td>- Combines x86 industry standard with mission-critical features</td>
<td>- Unity of x86 efficiency and flexibility with mission-critical availability</td>
</tr>
<tr>
<td>- Eliminate costs related to the UNIX world</td>
<td>- Lower license fees and software maintenance costs for Oracle databases</td>
</tr>
<tr>
<td>- New levels of energy efficiency</td>
<td></td>
</tr>
<tr>
<td><strong>Mission critical uptime leads to highest availability values in the x86 industry standard</strong></td>
<td></td>
</tr>
<tr>
<td>- Different partitioning available: From software partitioning to completely isolated physical partitioning (PPAR)</td>
<td>- Flexible platform to best meet individual requirements</td>
</tr>
<tr>
<td>- Up to four physical partitions (PPAR): Failures of one partition do not influence other partitions</td>
<td>- Business continuity ensured even if there is a failure in one of the partitions</td>
</tr>
<tr>
<td>- Active reserved system board for fast automatic recovery of services, in many cases without downtime</td>
<td>- Its built-in error prevention/correction and self-healing capabilities result in outstanding platform reliability</td>
</tr>
<tr>
<td>- Flexible I\O ensures availability of PCIe devices</td>
<td>- All serviceable system modules can be accessed from the front or rear of the system without any cabling hassle. Moreover, Dynamic Reconfiguration enables online maintenance without the need for restarts or planned downtimes</td>
</tr>
<tr>
<td>- Almost everything is redundant</td>
<td></td>
</tr>
<tr>
<td>- Online maintenance</td>
<td></td>
</tr>
<tr>
<td><strong>Dynamic platform for demanding applications</strong></td>
<td></td>
</tr>
<tr>
<td>- 8x Intel® Xeon® processor E7-8800 v2 product family with up to 120 cores</td>
<td>- Unprecedented performance and memory capacity for demanding corporate databases, in-memory solutions and mission-critical applications</td>
</tr>
<tr>
<td>- 192 DIMM slots enable a configuration of up to 12TB memory</td>
<td>- I/O throughput ensured</td>
</tr>
<tr>
<td>- ‘Glue-less’ design, no external QPI cables</td>
<td>- Efficient usage of available resources and simplified resource management without any need for restarts</td>
</tr>
<tr>
<td>- Many I/O expansion options for up to 56 PCIe slots</td>
<td></td>
</tr>
<tr>
<td>- Dynamic Reconfiguration enables changes in the configuration of resources and system boards without stopping the application</td>
<td></td>
</tr>

Technical details

<table>
<thead>
<tr>
<th>Mainboard type</th>
<th>up to 4 x Systemboard</th>
</tr>
</thead>
</table>
| Chipset                 | Intel® C104 Scalable Memory Buffer (Advanced)  
                         Intel® C602 J |
| Processor quantity and type | 1 - 8 x Intel® Xeon® processor E7-8800 v2 product family |
| Memory slots            | 192 Max. 12 TB |
| Memory slot type        | DIMM (DDR3) LV |
| Memory capacity (min. - max.) | 16 GB - 12 TB |
| Memory protection       | ECC  
                         Memory Mirroring support  
                         Advanced ECC  
                         DDDC (Double Device Data Correction) |
| Memory notes            | Up to 192 DIMM slots per server within 4 System Boards, each equipped with 2 Memory Mezzanine cards.  
                         12TB will be available with release of 64GB LRDIMM modules. |
| Memory modules notes    | Memory modules will be delivered in sets of 2 DIMMs per order code |
| Interfaces              |                        |
| USB 2.0 ports           | 1 |
| Graphics (15-pin)       | 1 x VGA per partition |
| Management LAN (RJ45)   | Dedicated Service LAN port for MMB (10/100 Mbit/s) |
| Onboard or integrated Controller | RAID 0/1 or RAID 5/6 controller integrated in System board and/or Disk Unit (option)  
Options are described under Components RAID controller |
| RAID controller         |                       |
| LAN controller          | LAN controllers are integrated in optional I/O units, details are described under I/O options |
| Remote management controller | PQ2000 Management Board (MMB) |
| Service Processor       | Management Board (MMB), located on the rear side of the system.  
2nd MMB as option |
| Interfaces              | For Maintenance:  
                         - Local: 10/100M RJ45 for local maintenance.  
                         - Remote: 10/100M RJ45 for REMCS, AIS-Connect, ACA and ServiceLink connection (Remote monitoring service).  
For Management:  
                         - 0/1 10M/100M/1G RJ45 |
| Redundancy              | Up to two MMB unit can be installed in one chassis. 2nd MMB for redundancy is optional. 2nd MMB is not supported at Business model (2800B). |
| I/O options             |                       |
| Type                    | LAN ports based on number of PCIe slots Max. number |
| Drive bays              |                         |
| Storage drive bays      | 2.5-inch hot-plug SAS |
| Storage drive bay config | Max. 24 x 2.5-inch |
| General system information |                       |
| Number of fans          | 6 |
| Fan configuration       | hot plug |
| Fan notes               | PSU cooling fan will be used as chassis cooling facility |
| Operating panel         | System status (orange / yellow)  
                         Power (amber / green)  
                         Identification (blue) |

**Operating Systems and Virtualization Software**

**Operating system release link**

**Operating system notes**
Not all OSes, OS versions and server functions will be released at server release. For details refer to link below.

**Server Management**

**Standard**

- ServerView Suite - Maintain
  - Remote Management (iRMC in combination with Intel® Node Manager)
  - Update Management (BIOS, Firmware, Windows Drivers, Agents and CIM Providers)
  - Performance Measurement
  - Asset Management
  - Online Diagnostics
- ServerView Suite - Integrate
  - Integration packs for Microsoft System Center, VMware vCenter, VMware vRealize, Nagios, and HP SIM
- ServerView Suite - Deploy
  - Deployment tools and others
- ServerView Suite - Control
  - Operations Manager incl. PDA and ASR & R
  - Agents and CIM Providers / Agentless Service
  - System Monitor
  - RAID Manager
  - Capacity Management
  - Power Management
  - Storage Support

**Dimensions / Weight**

- **Rack (W x D x H)**: 445 x 782 x 438 mm
- **Height Unit Rack**: 10 U
- **19" rackmount**: Yes
- **Weight**: Up to 150 kg
- **Weight notes**: Fully assembled. Actual weight may vary depending on configuration.

**Environment**

- **Operating ambient temperature**: 5 - 35 °C
- **Operating relative humidity**: 20 - 80 %
- **Maximum altitude**: 3,000 m
- **Operating environment**: FTS 04230 – Guideline for Data Center (installation specification)
- **Operating environment link**: http://docs.ts.fujitsu.com/dl.aspx?id=e4813edf-4a27-461a-8184-983092c12dbe
- **Noise emission**: Measured according to ISO 7779 and declared according to ISO 9296
  - **Sound pressure (LpAm)**: 60dB, 74dB (80 Plus Platinum)
  - **Sound power (LWAd; 1B = 10dB)**: 7.8B, 9.2B (80 Plus Platinum)

**Electrical values**

- **Power supply configuration**: Up to 6 hot plug power supplies. Base unit equipped with 0 power supplies, redundancy as option.
- **Max. input of single power supply**: 3200 W (240 V)
- **Power supply efficiency**: 94 % (80 PLUS platinum) / 89 %
- **Hot-plug power supply redundancy**: Yes
- **Rated voltage range**: 200 V - 240 V
- **Rated frequency range**: 47 Hz - 63 Hz
- **Rated current max.**: 65A / 29A (100 V / 240 V)
- **Rated current in basic configuration**: 7.2A
Electrical values

- Active power (max. configuration): 5,684 W
- Heat emission (max. configuration): 20462.4 kJ/h (19394.6 BTU/h)

Compliance

- Global: CB
  - RoHS ( Substance limitations in accordance with global RoHS regulations)
  - WEEE (Waste electrical and electronical equipment) - planned

- Europe: CE Class A *

- Japan: VCCI

Compliance link: https://sp.ts.fujitsu.com/sites/certificates

Compliance notes:
There is general compliance with the safety requirements of all European countries and North America. National approvals required in order to satisfy statutory regulations or for other reasons can be applied for on request.

* Warning:
This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

Components

**Fibre Channel controller**
- Fibre Channel Host Bus Adapter 1 x 8 Gbit/s Emulex LPe1250 MMF LC-style
- Fibre Channel Host Bus Adapter 2 x 8 Gbit/s Emulex LPe12002 MMF LC-style
- Fibre Channel Host Bus Adapter 1 x 16 Gbit/s Emulex LPe16000B LC-style

**Fibre Channel controller**
- Fibre Channel Host Bus Adapter 2 x 16 Gbit/s Emulex LPe16002B LC-style

**Communication, Network**
- Converged Network Adapter 2 x 10 Gbit/s PCIe 3.0 x8 SFP+ (Emulex)
- Ethernet Ctrl. 2 x 10 Gbit/s PCIe 2.0 x8 SFP+ (Fujitsu)
- Ethernet Ctrl. 2 x 10 Gbit/s PCIe 2.1 x8 Rj45 (Intel®)
- Ethernet Ctrl. 2 x 1 Gbit/s PCIe 2.1 x4 Rj45 (Intel®)
- Ethernet Ctrl. 4 x 1 Gbit/s PCIe 2.1 x4 Rj45 (Intel®)
- InfiniBand HCA 1 x 56 Gbit/s PCIe 3.0 x8 QSFP for the US market max. one IB HCA 56Gb controller can be installed (Mellanox)
- InfiniBand HCA 2 x 56 Gbit/s PCIe 3.0 x8 QSFP for the US market max. one IB HCA 56Gb controller can be installed (Mellanox)

Warranty

- Warranty period: 3 years (depending on country)
- Warranty type: Onsite Service

Product Related Services - the perfect extension

- Service Lifecycle: 5 years after end of product life
- Service Weblink: www.fujitsu.com/support
More information

In addition to FUJITSU Server PRIMEQUEST 2800E Mission Critical, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

Fujitsu Portfolio
Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation’s reliability.

Learn more about FUJITSU Server PRIMEQUEST 2800E Mission Critical, please contact your Fujitsu sales representative or Fujitsu Business partner, or visit our website.

Fujitsu Green Policy Innovation
Fujitsu Green Policy Innovation is our worldwide project for reducing burdens on the environment. Using our global know-how, we aim to contribute to the creation of a sustainable environment for future generations through IT.
