Fujitsu offers a fantastic blend of systems, solutions and expertise to guarantee maximum productivity, efficiency and flexibility, delivering confidence and reliability. Fujitsu Server PRIMERGY systems deliver workload-optimized x86 industry standard servers for any workload and business demand. Since there is no single server solution to meet all these needs, Fujitsu offers a broad server portfolio consisting of expandable tower servers for remote and branch offices, versatile rack-mount servers, density-optimized multi-node servers as well as GPU accelerated servers optimized for AI. Whatever the size of your business – large enterprise with multiple sites, or a small or medium-sized company with limited space and budget – with the right choice of server, your IT can become the business enabler you have always wanted it to be.

PRIMERGY GX2460 M1
The Fujitsu Server PRIMERGY GX2460 M1 is a sophisticated dual-socket rack server enhanced with the latest GPU accelerated technology to deliver the highest levels of workload versatile performance, expandability and energy efficiency at the right price points. This powerful system comes with the latest 2nd/3rd Gen AMD EPYC™ series processors with up to 32 cores, along with up to 1TB of memory across 16x DIMM slots and up to 4x NVIDIA® PCIe GPU accelerator card options plus NVIDIA's "NGC-Ready" certification making this powerful system ideal for accelerating demanding data-center workloads such as Artificial Intelligence with a focus on Deep Learning, Data Science, apart from other HPC, VDI and graphics use cases. Up to 8x NVMe/SATA drives and 6x PCIe Gen4 expansion slots (available slots depend on number of and type of GPUs installed) deliver workload versatility and future growth. The server is designed for reliability, and lowered cost of ownership with energy-efficient 2200W Platinum class dual power supplies. Furthermore, the server supports the FUJITSU ISM, to enhance admin productivity and ease server usage across the entire lifecycle.
### Features & Benefits

<table>
<thead>
<tr>
<th>Main Features</th>
<th>Benefits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GPU accelerated peak performance at the right price point</td>
<td>Ideal for heavy workloads - Deep Learning, Data Science, HPC, VDI, Graphics. NGC-Ready system tests single/multi-GPU Deep Learning training and inference, Data Science, Application Development. NVQual certifies reliable operation at max. throughput.</td>
</tr>
<tr>
<td>Support for up to 8x SATA/NVMe drives plus 6x PCIe Gen4 ports (availability depends on installed GPU numbers and type), standard onboard LAN (2x10 Gb/s), Also supports additional onboard I/O ports such as 4x USB-3.0, 1x VGA. Optimized for total cost of ownership</td>
<td>Storage capacity, networking capabilities can be tailored and expanded to specific business needs and budgets, whereas onboard I/O ports enhance connectivity.</td>
</tr>
<tr>
<td>Compact 2U design with dual redundant, high-efficiency Platinum class power supplies.</td>
<td>Redundant power supplies enhance reliability, and mitigate against expensive power supply failures, while high-efficiency further reduces overall energy envelope.</td>
</tr>
<tr>
<td>Designed for ease-of-use across the entire lifecycle</td>
<td>Fujitsu ISM software offers Server status, event monitoring, update, inventory/archive management, logging and auditing, floor layout and rack view via an easy to use UI. Pre-tested, validated software configurations also ease administrator burden.</td>
</tr>
</tbody>
</table>

- AMD EPYC™ 7002/7003 series processors with up to 32 cores, up to 1TB memory (16 DIMM slots), and up to 4x NVIDIA A40 PCIe GPU cards, or up to 2x NVIDIA A100 80GB, RTX A6000, or A30.
- Storage capacity, networking capabilities can be tailored and expanded to specific business needs and budgets, whereas onboard I/O ports enhance connectivity.
- Redundant power supplies enhance reliability, and mitigate against expensive power supply failures, while high-efficiency further reduces overall energy envelope.
- Fujitsu ISM software offers Server status, event monitoring, update, inventory/archive management, logging and auditing, floor layout and rack view via an easy to use UI. Pre-tested, validated software configurations also ease administrator burden.
Technical details

PRIMERGY GX2460 M1

Mainboard
Processor quantity and type 2 x AMD EPYC™ 7002 series processor / AMD EPYC™ 7003 series processor
Memory slots 16 (8 DIMMs per CPU)
Memory slot type DIMM (DDR4) ECC
Memory capacity (min. - max.) 128 GB - 1 TB
Memory protection ECC

Interfaces
USB 3.x ports 4 x USB 3.0 (2x front, 2x rear)
Graphics (15-pin) 1 x VGA (1 x rear)

Onboard or integrated Controller
SATA Controller AMD CPU includes SATA controller
LAN Controller 2 x 10 Gbit/s Ethernet
Remote management controller IPMI 2.0 compatible

Slots
PCI-Express 4.0 x16 6 x

Drive bays
Storage drive bays 2.5-inch hot-plug SATA/PCIe
Notes accessible drives All possible options described in relevant system configurator.
Optional accessible drives 1 x 5.25/9.5 mm for DVD-RW/Blu-Ray

General system information
Operating panel
Operating buttons On/off switch
Reset button
ID button
Status LEDs Hard disk error
LAN connection
ID
System status and warning (Memory/ PSU/ Fan)

BIOS
BIOS features IPv4/IPv6 remote PXE support
Legacy BIOS compatibility customer configuration option
Remote PXE boot support
Secure boot support
IPMI support
Local BIOS update from USB device
UEFI compliant

Operating Systems and Virtualization Software
Operating system release link http://docs.ts.fujitsu.com/dl.aspx?id=d4ebd846-aa0c-478b-8f5b-4cfbe3230473
Operating system notes Support of other Linux derivatives on demand
Use of certified or supported operating systems and virtualization software is subject to proactive acceptance of the respective License Agreements/ EULAs/ Subscription and support terms of the Software manufacturer as applicable for the relevant Software whether preinstalled or optional. The software may only be available bundled with a software support subscription which – depending on the Software - may be subject to separate remuneration.

   Advanced Edition

Management notes
For further information regarding ISM see dedicated data sheets.

Manageability link
http://docs.ts.fujitsu.com/dl.aspx?id=9e92297a-16fb-4c69-8559-e38e7b42fee6

Dimensions / Weight
Rack (W x D x H) 438 x 831 x 87 mm
Height Unit Rack 2 U
Weight max. 38 kg
Weight notes Actual weight may vary depending on configuration
Rack integration kit Rack integration kit as option

Environment
Operating relative humidity 10 - 85 % (non condensing)
Operating environment FTS 04230 – Guideline for Data Center (installation specification)
Noise emission Measured according to ISO 7779
Sound pressure (LpAm) 54 dB(A)~76 dB(A)
Noise notes Noise emissions depends on operation modes, system configuration and ambient temperature. Operating mode measured based on OLTIS with 50% load. *OLTIS = FUJITSU Load Profile which stresses all components of a server with a given load level.

Electrical values
Power supply configuration 2 hot-plug power supplies (standard)
Hot-plug power supply redundancy Yes
Active power note To estimate the power consumption of different configurations use the Fujitsu Product Configurator:
www.fujitsu.com/configurator/public
Power supply 2200W hot-plug, 94% (Platinum efficiency), 200-240V, 47-63 Hz

Compliance
Product PRIMERGY GX2460 M1
Global CB
   RoHS (Substance limitations in accordance with global RoHS regulations)
   WEEE (Waste electrical and electronical equipment)
Europe CE
USA/Canada CSAc/us
   ICES-003 - NMB-003 Class A
   FCC Class A
Japan VCCI/V3 Class A + JIS 61000-3-2
South Korea KN32
   KN35
Australia/New Zealand AS/NZS CISPR32 Class A
Taiwan CNS 13438 class A
Compliance link https://sp.ts.fujitsu.com/sites/certificates
Compliance notes There is general compliance with the safety requirements of all European countries and North America. National approvals required in order to satisfy statutory regulations or for other reasons can be applied for on request.
   * Warning:
   This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

Components
Notes

Compatibility
If and to the extent a list of components or certain compatibilities are specified in the product data sheet, these component lists and compatibility specifications are exhaustive. Using deviating or other system components and applications together with the product may but does not necessarily have to lead to compatibility problems. A final statement and/or commitment on the compatibility of such deviating or other system components and applications can only be provided after a corresponding verification through a dedicated compatibility testing.

Continuity management
The product may in connection with and depending on the specific configuration include elements to support time- and performance-critical applications, however high availability (e.g., 99.9999%) and failsafe performance is not a standalone product feature. If and to the extent the product is to be used in such business-critical environments, it is within the sole responsibility of the user to set up the specific additional technical features (e.g., Storage Cluster), redundancies, and operational conditions as required to ensure such high availability or failsafe performance.

Security
The properties of the product provide a baseline for product security and therefore end-customer IT security. However, these properties are not sufficient on their own to protect the product from all existing threats, such as intrusion attempts, data exfiltration and other forms of cyberattacks. To customize security settings, please use the configuration options as available for the respective product. During operation, the IT security of this product is within the responsibility of the respective administrator/end-user of the product. Please note, that Fujitsu as a manufacturer does not make any policy prescriptions or advocacy statements regarding IT security best practices and/or general product operation.

Warranty

Warranty period 3 years
Warranty type Onsite warranty
Product Support - the perfect extension

Support Pack Options
Globally available in major metropolitan areas:
9x5, Next Business Day Onsite Response Time
9x5, 4h Onsite Response Time (depending on country)
24x7, 4h Onsite Response Time (depending on country)

Recommended Service 24x7, Onsite Response Time: 4h - For locations outside of EMEA please contact your local Fujitsu partner.
Service Lifecycle at least 5 years after shipment, for details see https://support.ts.fujitsu.com/

Fujitsu products, solutions & services
In addition to Fujitsu PRIMERGY GX2460 M1, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

Fujitsu Portfolio
Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation’s reliability.
