

Data Sheet

FUJITSU InfiniBand HCA 40Gb 1/2 port (QDR)

InfiniBand HCA 40Gb 1/2 port (QDR) based on Intel® True Scale Fabric QLE7300 Series

InfiniBand Host Channel Adapter (HCA) enable data exchange between all the devices connected in an InfiniBand Network.

A networked IT infrastructure that functions well is of great significance when managing and controlling critical business processes in a company. The wide range of complex information transported across the network relies on fast and reliable data processing by the InfiniBand HCA.

InfiniBand technology provides a low-latency, high-bandwidth interconnect that can help increase scalability and performance in high-performance computing (HPC) cluster environments.

InfiniBand HCA 40Gb 1/2 port (QDR)

High Performance Computing (HPC) solutions require the highest levels of performance, scalability, and availability to power today's complex application workloads. Today's HPC clusters run demanding HPC applications faster when using Intel® True Scale Fabric host channel adapters (HCAs).

Designed specifically for HPC, the Intel® QLE7340 single-port and QLE7342 dual-port host channel adapters use an advanced "host onload" design that delivers performance which scales with core count, making them the ideal choice for most demanding applications.

Main Features

- Selectable 10, 20, or 40Gb/s InfiniBand
- Intel QLE734x delivers 40 Gb/s per port, 3400 MB/s unidirectional throughput
- The adapters does not need onboard firmware or external memory

Benefits

- Guaranteed bandwidth and low-latency services
- Provides the necessary bandwidth for high-throughput applications
- Enhancing not only performance, but also reliability

Technical details

Technical details

Interface technology	Intel True Scale Fabric QLE7300 Series
Controller type	InfiniBand HCA
Operating system pre-installed	Information to released operating systems can be found in the server datasheets. Details can be found in the released drivers list on the support portal.
Released drivers list link	http://support.ts.fujitsu.com/Download/Index.asp
Number of ports	1 2
Data transfer rate up to	40 Gbit/s
Bus interface	PCIe 2.0 x8
Bus transfer rate	3,400 MB/s
Protocol Support InfB	MVAPICH2, MVAPICH, Open MPI, Intel MPI Library
General features	IBTA Specification 1.2.1 compliant

Order code	Height of bracket	Number of Connectors	Related product
S26361-F4475-E122	Full Height / Low Profile	1	PRIMERGY Server
S26361-F4475-E222	Full Height / Low Profile	2	PRIMERGY Server
S26361-F4475-L122	Full Height / Low Profile	1	PRIMERGY Server
S26361-F4475-L222	Full Height / Low Profile	2	PRIMERGY Server

Environment

Power consumption	QLE7340: 5.2 W QLE7342: 6.2 W
Temperature (operating)	10 - 55 °C
Humidity (operating)	10 - 95 %

Compliance

Compliance notes	According to the corresponding system

More information

Fujitsu products, solutions & services

In addition to Fujitsu with InfiniBand HCA 40Gb 1/2 port (QDR), Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

Fujitsu Portfolio

Build on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offering. This allows customers to leverage from alternative sourcing and delivery models to increase their business agility and to improve their IT operation's reliability.

Fujitsu green policy innovation

Fujitsu Green Policy Innovation is our worldwide project for reducing burdens on the environment. Using our global know-how, we aim to contribute to the creation of a sustainable environment for future generations through IT. Please find further information at <http://www.fujitsu.com/global/about/environment>
