Data Sheet
Fujitsu PRIMERGY TX1310 M3 Tower Server

An ideal server for your essential workloads

Fujitsu offers a fantastic blend of systems, solutions and expertise to guarantee maximum productivity, efficiency and flexibility, delivering confidence and reliability. Fujitsu Server PRIMERGY systems deliver workload-optimized x86 industry standard servers for any workload and business demand. Since there is no single server solution to meet all these needs, Fujitsu offers a broad server portfolio consisting of expandable tower servers for remote and branch offices, versatile rack-mount servers and density-optimized multi-node servers. Whatever the size of your business – large enterprise with multiple sites, or a small or medium-sized company with limited space and budget – with the right choice of server, your IT can become the business enabler you have always wanted it to be.

PRIMERGY TX1310 M3
The FUJITSU Server PRIMERGY TX1310 M3 is ideal for Small and Medium-sized Enterprises and is designed to provide affordable performance for essential workloads. This mono-socket server supports the latest Intel® Xeon® E3-1200 v6 product family, Core™ i3, Pentium® and Celeron® processors, plus up to 64GB main memory to deliver right sized performance for standard infrastructure workloads such as file, print, web or office applications. The server features a completely new compact chassis, up to four 3.5-inch drives (40TB max.), plus data backup and networking capability to ensure that it can handle a range of essential workload and deployment requirements. It also offers data safety during processing via ECC memory. The PRIMERGY TX1310M3 allows organizations to upgrade from standard personal computers to an affordable server class system which can operate round the clock, and help them securely consolidate their data. Moreover, the PRIMERGY TX1310 M3 is incredibly silent making it a great choice for offices and showrooms. The servers' screw-less chassis and new hard disk quick-release capability also make it ideal from the ease of use and serviceability perspective.
## Features & Benefits

### Main Features

- **Right sized performance**
  - Affordable processor choices tailored to your business needs.
  - Range of Intel® Xeon® E3-1200 v6 product family, Core™ i3, Pentium® and Celeron® processors and up to 64 GB DDR4 ECC memory (4 DIMMs).
  - Ideal as a cost effective choice for many essential SME server tasks, such as file, print, web, office applications or even Industry-specific applications.
  - Provides ample performance for many small and medium sized businesses.
  - Upgrade from a PC to a server with high quality drives, large storage capacity plus professional data backup.
  - Transfer data with seamless, cost-effective connectivity. Additional optional networking cards are available for enhanced business specific needs.
  - Protect your investment with a design having headroom for growth.
  - Safety for your valuable enterprise data while it is being processed.
  - Keeps your business running non stop.

- **Server class features across the entire feature set**
  - Enhance your storage with up to 4x 3.5-inch non-hot plug SATA storage drives (up to 40TB) and support for RDX backup devices.
  - Onboard Gigabit LAN as standard.
  - 4x PCIe Gen3 slots for scalability.
  - Error-correcting code (ECC) memory.
  - Enhanced cooling for 24x7 operation.
  - Silent Operation and a wide range of operation (5 °C to 35 °C).
  - Screw-less chassis with easy, fast and comfortable access to the interior of the server, PCIe slots and brand new cold-plug drive designs with cable less access to the hard disks.

### Benefits

- **Ideal as a cost effective choice for many essential SME server tasks, such as file, print, web, office applications or even Industry-specific applications.**
- **Provides ample performance for many small and medium sized businesses.**
- **Upgrade from a PC to a server with high quality drives, large storage capacity plus professional data backup.**
- **Transfer data with seamless, cost-effective connectivity. Additional optional networking cards are available for enhanced business specific needs.**
- **Protect your investment with a design having headroom for growth.**
- **Safety for your valuable enterprise data while it is being processed.**
- **Keeps your business running non stop.**

### Enhanced ease of use and serviceability

- Fujitsu's innovative Cool-safe® Advanced Thermal Design technology and optimized air flow for low noise emissions.
- Innovative new compact chassis design for enhanced serviceability.

### I/O controller on board

| ATA total          | 5                                        |
| RAID controller     | 4 port SATA with RAID 0/1/10 for HDDs   |
| SATA Controller     | Intel® C236                              |
| LAN Controller      | Intel® i219 onboard                      |
|                     | 10/100/1000 Mbit/s Ethernet             |
|                     | PXE-Boot by LAN via PXE-Server, Teaming supported |   |
| Trusted Platform Module (TPM) | Infineon / TPM 1.2 or TPM 2.0 module; TCG compliant (option) |

### Slots

| PCI-Express 3.0 x4 (mech. x16) | 1 x Full height, up to 215 mm length |
| PCI-Express 3.0 x16            | 1 x Full height, up to 240 mm length |

**Slot Notes**

Standard: 2x PCIe x1 (notched), both slots are Full height. One slot up to 215mm Length and one slot up to 168mm Length, Basic: n.a.

### Drive bays

| Storage drive bay configuration | SATA only |
| Notes accessible drives        | 2 (1x 9.5mm for DVD/DVD-RW, 1x 5.25-inch half height) |
| Storage drive bays             | 4 x 3.5-inch cold-plug SATA |

### Fan Configuration

| Fan configuration | Silent system fans |
| Fan notes         | Non hot-plug |

---

### Operating panel
- Operating buttons: On/off switch
- Status LEDs: Power (green)

### Operating Systems and Virtualization Software
- Operating system notes: Support of other Linux derivatives on demand. Red Hat® certification starting with version 5.9 / 6.4.
- Use of certified or supported operating systems and virtualization software is subject to proactive acceptance of the respective License Agreements/ EULAs/ Subscription and support terms of the Software manufacturer as applicable for the relevant Software whether preinstalled or optional. The software may only be available bundled with a software support subscription which – depending on the Software - may be subject to separate remuneration.

### Server Management
- DC Infrastructure Management: Infrastructure Manager (ISM)
  - Essential Edition
  - Advanced Edition
- Server Management: Infrastructure Manager (ISM)
  - Essential Edition
  - Advanced Edition
- ServerView Suite

### Dimensions / Weight
- Floor-stand (W x D x H): 180 x 313 x 374 mm
- Weight: up to 12 kg

### Environment
- Operating ambient temperature: 5 - 35 °C
- Operating temperature note: ETSI 300 019-2-3 Class 3.1
- Operating environment: FTS 04230 – Guideline for Data Center (installation specification)
- Noise emission: According to ISO9296 (LpAm at bystander position)
- Sound pressure (LpAm): 23 dB(A) (idle)/ 24 dB(A) (operating)
- Sound power (LWAd; 1B = 10dB): 4.0B (idle)/ 4.0B (operating)
- Noise notes: Noise emissions depend on operation modes, system configuration and ambient temperature.

### Electrical values
- Power supply configuration: 1 x standard power supply
- Active power (max. configuration): 139 W
- Apparent power (max. configuration): 140 VA
- Heat emission (max. configuration): 500.4 kJ/h (474.3 BTU/h)
- Rated current max.: 3.5A (100 V) / 1.5 A (240 V)
- Active power note: To estimate the power consumption of different configurations use the Fujitsu Product Configurator: [www.fujitsu.com/configurator/public](http://www.fujitsu.com/configurator/public)
- Power supply: 250W standard, 85% (Bronze efficiency), 100-240V, 50 / 60Hz

### Compliance
- Product: PRIMERGY TX1310 M3
- Model: MI6W
- Global: CB
- RoHS (Substance limitations in accordance with global RoHS regulations)
- WEEE (Waste electrical and electronical equipment)
- Germany: GS
- Europe: CE
- USA/Canada: CSA us
- ULc/us
- FCC Class A
- Japan: VCCI V3 Class A + JIS 61000-3-2
- South Korea: KC
- China: CCC (planned)
Compliance

| Compliance notes | There is general compliance with the safety requirements of all European countries and North America. National approvals required in order to satisfy statutory regulations or for other reasons can be applied for on request. * Warning: This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures. |

Components

Warranty

| Warranty period | 1 year |
| Warranty type | Onsite Service |

Support Pack Options

| Globally available in major metropolitan areas: 9x5, Next Business Day Onsite Response Time 9x5, 4h Onsite Response Time (depending on country) 24x7, 4h Onsite Response Time (depending on country) |

Recommended Service

| 24x7, Onsite Response Time: 4h |

Service Lifecycle

| at least 5 years after shipment, for details see https://support.ts.fujitsu.com/ |

Spare Parts availability

| 5 years |

Fujitsu products, solutions & services
In addition to Fujitsu PRIMERGY TX1310 M3, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

Fujitsu Portfolio
Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation's reliability.
