Data Sheet
Fujitsu PRIMERGY TX1310 M5 Tower Server

An ideal modern server for your essential workloads

Fujitsu offers a fantastic blend of systems, solutions and expertise to guarantee maximum productivity, efficiency and flexibility, delivering confidence and reliability. Fujitsu Server PRIMERGY systems deliver workload-optimized x86 industry standard servers for any workload and business demand. Since there is no single server solution to meet all these needs, Fujitsu offers a broad server portfolio consisting of expandable tower servers for remote and branch offices, versatile rack-mount servers and density-optimized multi-node servers. Whatever the size of your business – large enterprise with multiple sites, or a small or medium-sized company with limited space and budget – with the right choice of server, your IT can become the business enabler you have always wanted it to be.

PRIMERGY TX1310 M5
The Fujitsu PRIMERGY Server TX1310 M5 is ideal as the first server for small and medium-sized enterprises and is designed to provide affordable performance for essential workloads. This mono-socket server now offers the latest Intel® Xeon® E-2300 product family, Pentium® processors for compute plus up to 128GB main memory at 3200 MT/s, to boost performance across standard infrastructure workloads such as file, print, web, office applications, etc. The server supports up to four 3.5-inch drives (HDD/SSD), together with data backup and networking capability to address a range of workload and deployment requirements. It also provides data safety during processing via ECC memory. The PRIMERGY TX1310 M5 allows organizations to upgrade their IT infrastructure from personal computers to an affordable server class system, one which can operate on a round-the-clock basis, and to help them consolidate their data securely. Moreover, the PRIMERGY TX1310 M5 is compact and silent, making it a great choice for offices and showrooms. The servers’ screwless chassis and hard disk quick release capability makes it ideal as far as ease of use and serviceability are concerned.

# Features & Benefits

<table>
<thead>
<tr>
<th>Main Features</th>
<th>Benefits</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>RIGHT-SIZED PERFORMANCE</strong></td>
<td>A genuine prize, affordable yet substantial compute and memory tailored to match most essential SME server tasks, such as file, print, web, office applications or even industry-specific applications.</td>
</tr>
<tr>
<td>Processor choices tailored to your business needs at the right price-point, including the latest Intel® Xeon® E-2300 product family processors and a Pentium® option and up to 128 GB DDR4 ECC memory (4 DIMMs) at 3200 MT/s.</td>
<td></td>
</tr>
<tr>
<td><strong>VALUE-ORIENTED EXPANDABILITY</strong></td>
<td>Upgrade from a PC to a server design which has 4x 3.5-inch, large capacity drives, plus professional data backup, and seamless, cost-effective dual-Gigabit networking. 4x PCIe (1xGen4) slots enable upgrades such as a NVIDIA card for enhanced graphics capabilities.</td>
</tr>
<tr>
<td>Compact design with up to 4x 3.5-inch storage drives (SSD/HDD) and support for RDX backup devices, onboard dual Gigabit LAN as standard and 4x PCIe slots for expandability including graphics enhancement.</td>
<td></td>
</tr>
<tr>
<td><strong>AFFORDABLE SERVER CLASS RELIABILITY</strong></td>
<td>Server class design features offer robust investment protection. ECC memory offers safety for your valuable enterprise data even as the data is being processed, while Cool-safe® allows for relatively silent and expanded range of operation.</td>
</tr>
<tr>
<td>Designed to be the “first server” for SMEs without compromising on server class capability; offers design features such as Error-correcting code (ECC) memory and Cool-safe® Advanced Thermal Design.</td>
<td></td>
</tr>
<tr>
<td><strong>ENHANCED EASE OF USE</strong></td>
<td>The server design features a screw-less chassis with easy, fast and comfortable access to the interior of the server, PCIe slots and cold-plug drive designs with cable less access to the hard disks.</td>
</tr>
<tr>
<td>Chassis design for enhanced serviceability.</td>
<td></td>
</tr>

### Onboard or integrated Controller

| Serial ATA total       | 7                                  |
| RAID controller         | 4 port SATA with RAID 0/1/10 for HDDs Integrated RAID 0/1 or RAID 5/6 controller (option) |
| SATA Controller         | Intel® C256, 1x SATA channel for ODD, 2x SATA channel for M.2, 4x SATA channel for HDD/SSD |
| LAN Controller          | Intel® i210 onboard 2 x 1 Gbit/s Ethernet (RJ45) |
| Trusted Platform Module (TPM) | TPM 2.0 module (option) |

### Slots

| PCI-Express 4.0 x16    | 1 x Full height                     |
| PCI-Express 3.0 x1 (mech. x4) | 1 x Full height, up to 215 mm length |
| PCI-Express 3.0 x4     | 2 x Full height, up to 215 mm length |
| Slot Notes             | PCIe 4.0 slot works as PCIe 3.0 with Pentium CPU. |

### Drive bays

| Storage drive bays     | 4 x 3.5-inch cold-plug SATA         |
| Accessible drive bays  | 1 x 5.25/9.5mm for DVD-RW/Blu-ray   |
|                        | 1 x 5.25/1.6-inch for backup devices |
| Storage drive bays     | 4 x 3.5-inch cold-plug SATA         |
| Number of fans         | 2                                  |
| Fan configuration      | Silent system fans                  |
| Fan notes              | Non hot-plug                        |

### Operating panel

| Operating buttons      | On/off switch                       |

Page 3 / 6

Operating panel

Status LEDs
- At system front side:
  - Power (DC-On: green / AC-On: white)
  - Hard disks access (green)
- At system rear side:
  - LAN connection (green)
  - LAN speed (green / yellow)

Operating Systems and Virtualization Software

Operating system notes
Use of certified or supported operating systems and virtualization software is subject to proactive acceptance of the respective License Agreements / EULAs / Subscription and support terms of the Software manufacturer as applicable for the relevant Software whether preinstalled or optional. The software may only be available bundled with a software support subscription which – depending on the Software - may be subject to separate remuneration.

Server Management

DC Infrastructure Management
- Infrastructure Manager (ISM)
  - Essential Edition
  - Advanced Edition

Server Management
- Infrastructure Manager (ISM)
- ServerView Agentless Service (SVAS)
- ServerView Installation Manager (SVIM)

Management notes
For further information regarding ISM and ServerView Suite see dedicated data sheets.

Manageability link [http://docs.ts.fujitsu.com/dl.aspx?id=9e92297a-16fb-4c69-8559-e38e7b42fee6](http://docs.ts.fujitsu.com/dl.aspx?id=9e92297a-16fb-4c69-8559-e38e7b42fee6)

Dimensions / Weight

Floor-stand (W x D x H) 180 x 313 x 379 mm
Weight up to 11 kg

Environment

Operating ambient temperature 5 - 45 °C (41 - 113 °F)
Operating temperature note Cool-safe® Advanced Thermal Design (above 35 °C or below 10 °C) depending on configuration. Please use the Fujitsu WebArchitect (www.fujitsu.com/configurator/public) to get detailed information on the corresponding configurations.

Operating relative humidity 8 - 85 % (non condensing)
Operating environment FTS 04230 – Guideline for Data Center (installation specification)

Noise emission According to ISO9296 (LpAm at bystander position)
- Sound pressure (LpAm) 22 dB(A) (idle)/ 23 dB(A) (operating)
- Sound power (LWAd; 1B = 10dB) 3.6B (idle)/ 3.8B (operating)

Noise notes Noise emissions depends on operation modes, system configuration and ambient temperature.

Power supply configuration 1 x standard power supply
Active power (max. configuration) 284 W
Apparent power (max. configuration) 100VAC: 299W (Max)
- 200VAC: 289W (Max)
Heat emission (max. configuration) 1022.4 kJ/h (969.0 BTU/h)
Rated current max. 7-3.5A 100-240V
Active power note To estimate the power consumption of different configurations please use the Fujitsu WebArchitect: www.fujitsu.com/configurator/public

Power supply 250W standard, 90% (Gold efficiency), 100-240V, 50 / 60Hz
450W standard, 92% (Platinum efficiency), 100-240V, 50/60Hz

Compliance notes There is general compliance with the safety requirements of all European countries and North America. National approvals required in order to satisfy statutory regulations or for other reasons can be applied for on request.

* Warning:
This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

Components

Notes

Compatibility If and to the extent a list of components or certain compatibilities are specified in the product data sheet, these component lists and compatibility specifications are exhaustive. Using deviating or other system components and applications together with the product may but does not necessarily have to lead to compatibility problems. A final statement and/or commitment on the compatibility of such deviating or other system components and applications can only be provided after a corresponding verification through a dedicated compatibility testing.

Continuity management The product may in connection with and depending on the specific configuration include elements to support time- and performance-critical applications, however high availability (e.g., 99.9999%) and failsafe performance is not a standalone product feature. If and to the extent the product is to be used in such business-critical environments, it is within the sole responsibility of the user to set up the specific additional technical features (e.g., Storage Cluster), redundancies, and operational conditions as required to ensure such high availability or failsafe performance.

Security The properties of the product provide a baseline for product security and therefore end-customer IT security. However, these properties are not sufficient on their own to protect the product from all existing threats, such as intrusion attempts, data exfiltration and other forms of cyberattacks. To customize security settings, please use the configuration options as available for the respective product. During operation, the IT security of this product is within the responsibility of the respective administrator/end-user of the product. Please note, that Fujitsu as a manufacturer does not make any policy prescriptions or advocacy statements regarding IT security best practices and/or general product operation.

Warranty

Manufacturer warranty period 1 year
Warranty type Onsite warranty

Recommended Service 24x7 Onsite Service with 4h Onsite Response Time
Service Lifecycle at least 5 years after shipment, for details see https://support.ts.fujitsu.com/
More information

Fujitsu products, solutions & services
In addition to Fujitsu PRIMERGY TX1310 M5, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

Fujitsu Portfolio
Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation’s reliability.
