## FUJITSU USB 3.0 PCIe x1 Adapter Card

USB 3.0 PCIe x1 Adapter Card for USB 3.0 devices (RDX)

The motivation for the Universal Serial Bus (USB) came from several considerations, two of the most important being ease of use and port expansion. USB goal remains to enable devices from different vendors to interoperate in an open architecture. USB is the most successful interface for connecting peripherals and peripheral interconnect ever defined and it has also migrated heavily into the server segment.

### USB 3.0 PCIe x1 Adapter Card

Super-Speed USB 3.0 interface is the next revolution in I/O interconnect standards. With 10 times faster throughput than USB 2.0 standard and backward compatible with current USB device features, USB 3.0 interface will be the trend of IT technology. This board is a dual-port Super-Speed USB 3.0 PCI Express card. It is compliant with the PCI Express Generation 2 specification for host PC system. It works up to 5 Gbps for data transfer when connecting to USB 3.0 compliant peripherals, while maintaining compatibility with existing USB peripheral devices. This board supports USB 3.0 High-Speed device and backward compatible with current USB 2.0 High-Speed and USB 1.1 Full-Speed device. It is an ideal choice for external USB 3.0 devices and a reasonable supplement for the new internal RDX Drive USB3.0.

#### Main Features

- USB 3.0 compliant
- One internal and one external port

#### Benefits

- Enhanced Performance
- One internal RDX USB 3.0 drive can be connected and additional one external USB 3.0 device

# Technical details

## Technical details

<b>Controller Silicon</b>	Sunrich Technology U720 with Renesas uPD720202
<b>Controller type</b>	USB Controller
<b>Connector type</b>	USB3.0 A
<b>Operating system pre-installed</b>	Information to released operating systems can be found in the server datasheets. Details can be found in the released drivers list on the support portal.
<b>Released drivers list link</b>	<a href="http://support.ts.fujitsu.com/Download/Index.asp">http://support.ts.fujitsu.com/Download/Index.asp</a>
<b>Number of ports</b>	1x int /1x ext
<b>Bus interface</b>	PCIe x1
<b>Bus type</b>	PCIe 2.0
<b>Bus transfer rate</b>	5GT/s
<b>Notes</b>	System boot via this adapter is NOT supported! The internal port is dedicated to connect to an internal RDX USB 3.0 drive.

<b>Order code</b>	<b>Product Name</b>	<b>Height of bracket</b>	<b>Number of Connectors</b>	<b>Formfactor</b>
S26361-F3749-E1	USB3.0 PCIe x1 adapter card	Full Height (FH)	2	Low profile
S26361-F3749-E201	USB3.0 PCIe x1 adapter lp	Low Profile (LP)	2	Low profile
S26361-F3749-L501	USB3.0 PCIe x1 adapter card	Full Height / Low Profile	2	Low profile

## Environment

<b>Power consumption</b>	typ. 1.5 W, max. 6.5W (depends on inline power consumption of external connected USB device)
<b>Temperature (operating)</b>	5 - 35 °C
<b>Storage temperature</b>	0 - 50 °C

## Compliance

<b>Compliance link</b>	<a href="https://sp.ts.fujitsu.com/sites/certificates">https://sp.ts.fujitsu.com/sites/certificates</a>
------------------------	---

# More information

## Fujitsu products, solutions & services

In addition to Fujitsu with USB 3.0 PCIe x1 Adapter Card, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

### Fujitsu Portfolio

Build on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offering. This allows customers to leverage from alternative sourcing and delivery models to increase their business agility and to improve their IT operation's reliability.
