

# Datasheet

## Fujitsu Payment Station Mini Cashless - Self-Checkout Solution

Modular, flexibel and efficient.

### Self-Service solution

- Option 1 - Self Scan - the customer self scans their items using a mobile hand scanner. When the customer has completed their shopping, the scanner is handed to a member of staff to calculate their bill and a barcoded token is issued
- Option 2 - Staff Scan - the customer collects their shopping in the traditional manner and proceeds to the manned Scan-Station. A member of staff scans the customers shopping and issues a barcoded token.

The customer proceeds to the Payment Station-mini, scans the receipt to recover their transaction and enters the correct amount of notes and coins to complete the journey.

### Modular Design

The core of the Payment Station-Mini is the Fujitsu TP Trio 15" LCD-PC mounted on the top of the kiosk. Beneath are a plethora of configurable components that allows the store to design around their customer experience. Delivering cashless, cash only or why not both. All card types accepted via the optional pole mounted EFT terminal and all currency formats

### Business benefits

The kiosks deliver a number of key business benefits; an enhanced customer experience, a reduction in queues, more available time for value added activities, and increased revenue as customer retention levels rise.

# Components

## Major Components

### Fujitsu TP-X II Coupe & D15 Touch :

- Windows Embedded POSReady 2009 or WEPOS
- Intel CPU
- 15"-Touch Display
- 1 GB RAM
- 160 GB Hard Disk
- Multiple powered and unpowered USB & serial ports
- LAN, optional Wi-Fi & 3G

### Scanning

- High performance imaging technology supporting 1d, 2d, PDF412. Small lens and presentation variants available.

### Printing

- High speed 80mm receipt printer with optional second printer for coupons or labels

### Payment

- Side pole mounted EFT Pin Pad & Card Reader for Swipe & Chip

### Signal Tower

- High bright 3-lens signal tower on rear mounted pole

### Coupons

- Optional integral coupon sensor and collection bin

### Installation

- Through base fixing bolts (standard) or small freestanding base plate.

### Customer-Specific Configurations :

- Customer configurations and accessories subject to confirmation

# Technical Details

Function	Description
Operating System	Microsoft® Windows® Embedded POSReady 2009 or WEPOS
CPU	Fujitsu TP-X II Coupe PoS Intel® CPU
Memory	1 GB (DDR2 SDRAM)
Storage	160 GB Hard Disk
Display	Fujitsu 15"-TFT-Colour-LCD and touch panel
Audio	Internal speakers
Keyboard	On Screen Pop Up Keyboard
Network	LAN (standard), WLAN (optional)
Bluetooth™	Bluetooth (optional)
Expansion Storage	External Hard Disk
Scanning	1d-, 2d- & PDF412-formats, Vertical Scanner or Biometric Scanner Scale
Printing	80mm thermal receipt as standard. Optional 2nd coupon – or label printer
Payment	Cashless – side pole mounted EFT terminal. Integral rugged steel UPT.
Signal Tower	3 stage LED signal tower mounted on steel pole
Coupons	Coupon sensor & collector (optional)
Basket & Bagging	Side attached optional bagging scale and basket shelf
Dimensions / Weight	Cashless Version H x W x D: 1359 x 320 x 320 mm on standard base. (freestanding footplate W 340mm x D 340mm) x 104 kg (depending on configuration)

# Additional Information

## Fujitsu platform solutions

In addition to Fujitsu Mini Cashless Self-Checkout, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

### Dynamic Infrastructures

With the Fujitsu Dynamic Infrastructures approach, Fujitsu offers a full portfolio of IT products, solutions and services, ranging from clients to datacenter solutions, Managed Infrastructure and Infrastructure-as-a-Service. How much you benefit from Fujitsu technologies and services depends on the level of cooperation you choose. This takes IT flexibility and efficiency to the next level.
