

Cost-efficient  
and highly  
available IT

Fujitsu 2-node  
Microsoft HCI bundle

Windows Server 2019:  
The operating system that  
bridges on-premises and cloud.

## HCI for under 20.000 Euro

The 2-node Microsoft HCI bundle by Fujitsu is a cost-efficient, highly available hyper-converged IT infrastructure (HCI) that's easy to run and designed around the needs of small-to-medium sized businesses, remote/branch offices and edge computing environments.

The Fujitsu 2-node Microsoft HCI bundle is based on FUJITSU Integrated System PRIMEFLEX for Microsoft Azure Stack HCI, an integrated system that includes all the hardware and software to simplify deployment of a Microsoft-based hyper-converged IT infrastructure. It leverages high performance, energy-efficient Fujitsu PRIMERGY standard x86 servers and Microsoft Hyper-V and Storage Spaces Direct, the software-defined server and storage technology integrated in Windows Server 2019 Datacenter.

### Your benefits

- Save infrastructure costs
- Protect your business
- Enjoy high application performance
- Benefit from easy operation
- Get fast time to value
- Access world-class support

shaping tomorrow with you

The Fujitsu logo, featuring the word "FUJITSU" in a bold, red, sans-serif font. Above the letter "i" is a red infinity symbol.

# Most cost-efficient infrastructure foundation for SMB, ROBO and IOT-Edge environments

If your organization is facing challenges of constrained budgets, space, power and IT staff resources; the 2-node Microsoft HCI bundle from Fujitsu can provide you with a cost-optimized solution that requires no external storage systems and LAN switches.

**Windows Server 2019:**  
The operating system that bridges on-premises and cloud.

## Save infrastructure costs

Up to 70% savings on hardware, up to 50% smaller data center footprint, up to 85% less power than traditional converged infrastructure.

## Benefit from easy operation

Get unified management with Windows Admin Center – the new purpose-built management tool integrated in Windows Server 2019 for free.

## Protect your business

Reduce downtime with Windows Server 2019 failover cluster providing high-availability for compute and storage.

## Get fast time to value

Mitigate deployment risk with an HCI solution including only Microsoft certified components, validated and pre-configured by Fujitsu.

## Enjoy high application performance

Accelerate production workloads with a high-performance and energy-efficient server platform for your Microsoft HCI environment – FUJITSU Server PRIMERGY.

## Access world-class support

Get end-to-end infrastructure support with a single point of contact for the entire hardware and software stack.

## Fujitsu 2-node Microsoft HCI bundle: Your options (single server node specifications)

Server	TX1330 M4 Hybrid SSD/HDD(3.5')	RX2540 M5 Hybrid SSD/HDD (3.5')
Software	Windows Server 2019 Datacenter (16 core OEM)	Windows Server 2019 Datacenter (16 core OEM)
CPU	1x Intel® Xeon® E-2124 4C/4T 3.30 GHz	2x Intel® Xeon® Silver 4208 8C 2.10 GHz
Memory	64 GB	64 GB
Storage	1.92 TB GB SATA SSD (cache), 16 TB SATA HDD (capacity)	1.92 TB GB SATA SSD (cache), 16 TB SATA HDD (capacity)
Network	2x 25Gb, 4x 1Gb	4x 10Gb, 2x 1Gb
