

Work with confidence anywhere

LIFEBOOK U937

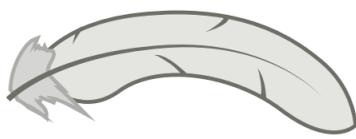

Wherever you work, your notebook has to keep up without weighing you down – and keep you **secure**, too. The **FUJITSU Notebook LIFEBOOK U937** is your light yet powerful business companion.

Why the LIFEBOOK U937 is the best companion for business professionals on the move:

#1

Be ultra-mobile

The LIFEBOOK U937 is light enough to carry anywhere – and keeps working as long as you do!

- Lightest notebook in FUJITSU range: 15.5 mm, starting at 920 g
- Fantastic viewing: Anti-glare FHD 13.3-inch display with optional glare touch
- Tough as nails: robust magnesium housing
- Work ALL DAY without power socket: full-day battery runtime

#2

Perform to the max

With performance at this level, there's no need for a separate desktop PC.

- Blazing performance despite slimline design – PCIe SSDs to process data faster
- Up to 7th generation Intel Core i7 vPro processor
- Full set of interfaces with full-sized HDMI & LAN connector, and USB Type-C port replicator to have the same performance back at the office

#3

Stay secure

The LIFEBOOK U937 keeps your company data secure – wherever you are.

Choose either

- Embedded PalmSecure™ technology: super-secure, contactless biometric authentication
- or
- Fingerprint sensor
 - Also features SmartCard reader and TPM 2.0

Prefer even longer battery runtime over design?

Discover the new LIFEBOOK S937.

- Up to 21 hours' battery runtime with modular bay to take second battery
- Starting at 1.19 kg
- Anti-glare WQHD or FHD IGZO 13.3-inch non-touch display or glare touch option
- Powerful performance with latest Intel vPro processor, DDR4 memory technology up to 24 GB RAM
