

The Workstation (R)Evolution

FUJITSU CELSIUS Workstations J and W Series

Innovations & Ideas...

- Automotive
Aeronautics
- Architecture
Construction
Urban Planning
- Media
Entertainment
Virtual Reality
- Events
Showrooms
Multi-Monitoring

...require great

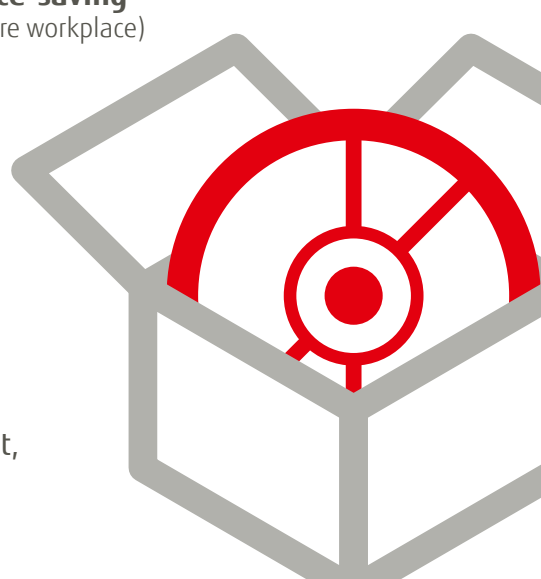

Hardware...

- #1 **Performance**
(graphics & processor)
- #2 **Expandability**
(storage, graphics)
- #3 **Reliability**
(24x7)
- #4 **Quiet**
(built into the design)

...and Software

which knows how to get the max out of the hardware.

- Graphics accelerated applications – to perform at its best
- For applications like Autodesk AutoCAD and Revit, Dassault Systèmes CATIA and SOLIDWORKS, Nemetschek Allplan or PTC Creo Parametric

Small Yet Powerful Workstations

No compromise between size and performance

CELSIUS J580
Small Form Factor (SFF) Workstation

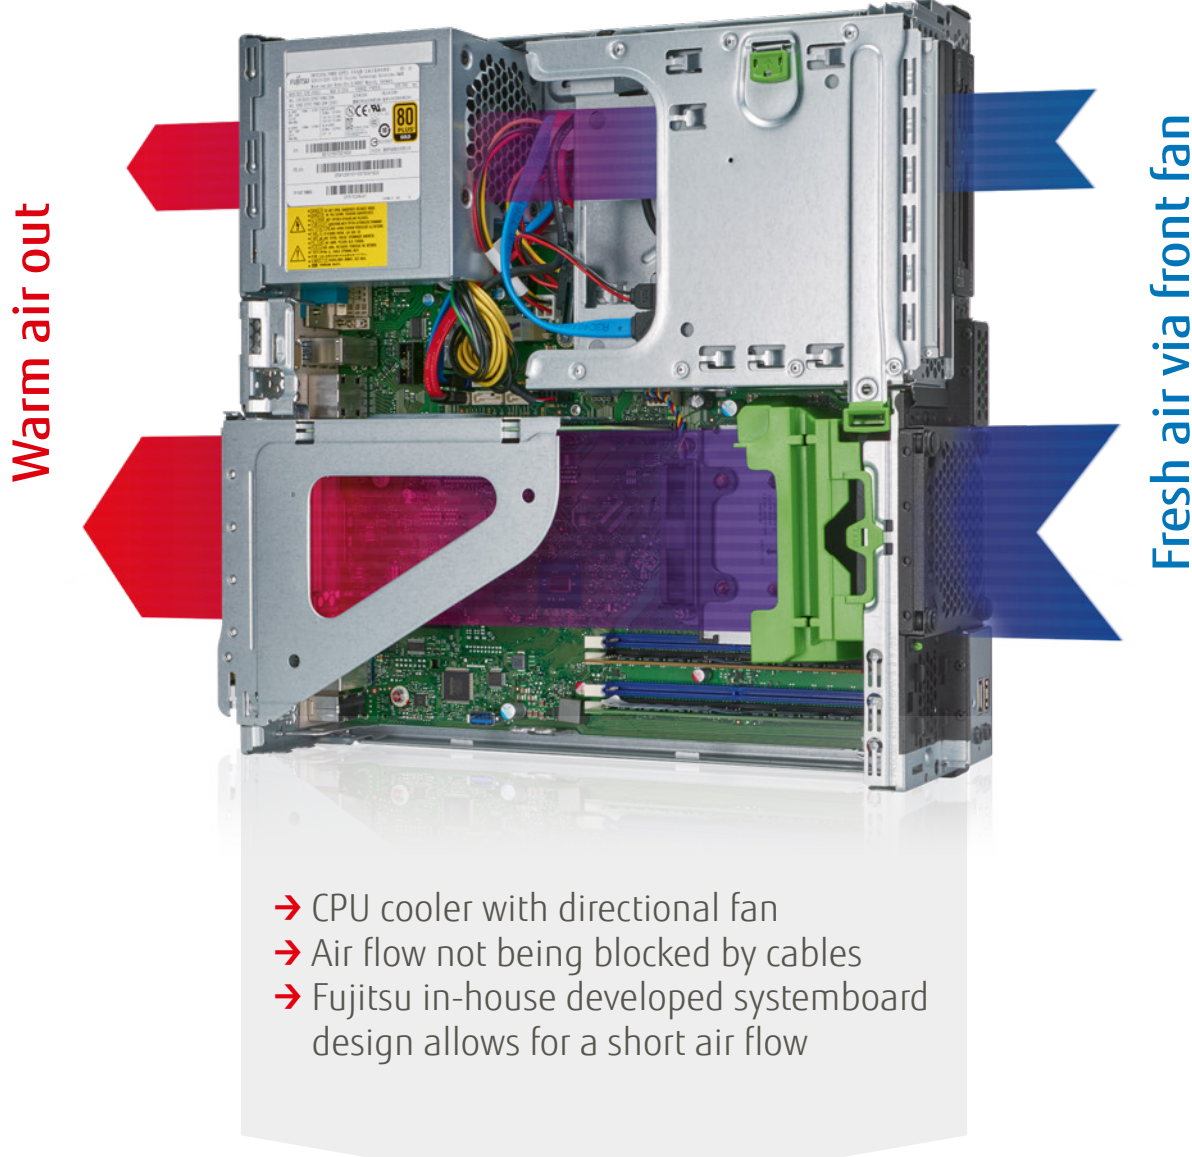

CELSIUS W580 & W580power+
Desktop Workstations

- TCO and Space Saving:**
- 10 liter design only
 - The world's only Small Form Factor workstation with full height graphics
