

The right cloud for the right workload

FUJITSU

Fujitsu Hybrid Cloud Solutions

The hybrid cloud has become the front runner operating model for enterprises, as they look to find the right cloud for their needs.

Enterprises show substantial hybrid adoption plans for the next five years:¹

85%

consider hybrid cloud as the ideal platform

49%

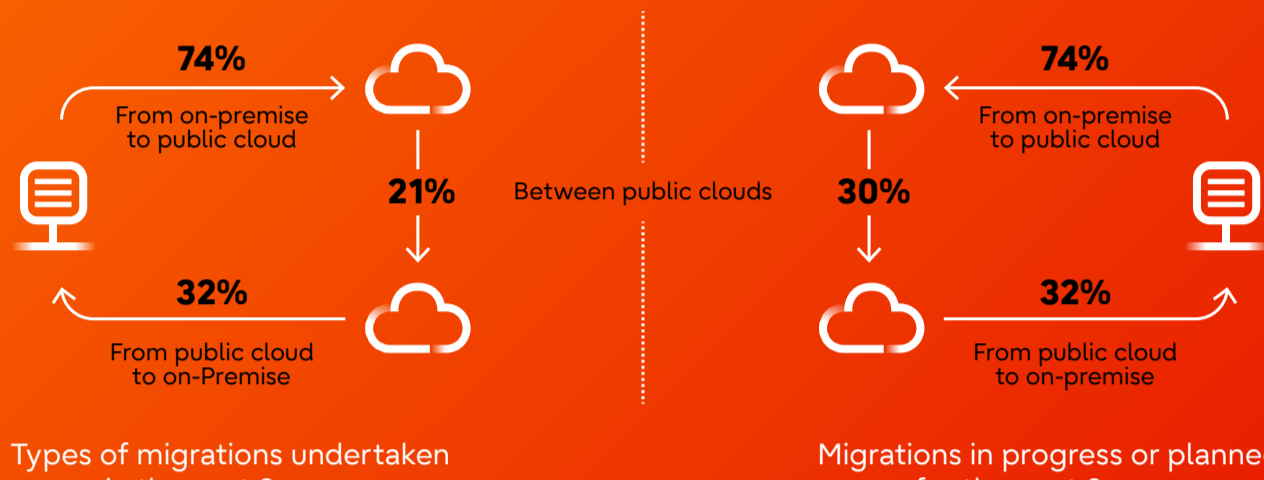

say that hybrid cloud meets all their needs

Emerging trends show a shift to hybrid cloud:²

1 Service migrations are happening to the cloud or back from it (repatriation)

Enterprises that are migrating or are planning to:

2 Hyperconverged infrastructures (HCI) are an ideal and trusted architecture for the hybrid world

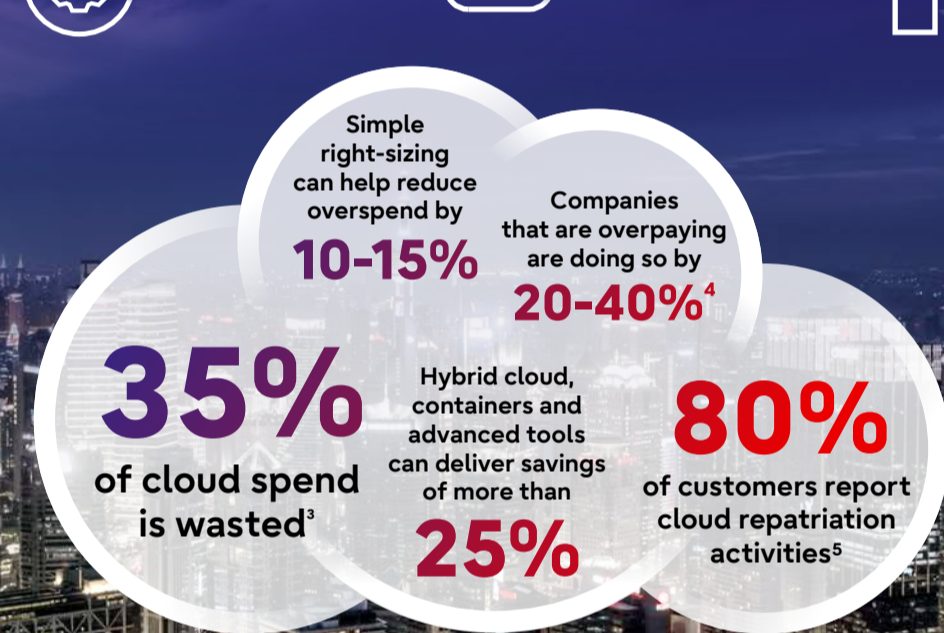

strongly agree/agree HCI provides an ideal foundation for Hybrid IT

strongly agree/agree consolidated/unified management is critical to success with Hybrid IT

Taking control

The magic is in placing the right workload on the right cloud with the right sizing.

- Factors to be considered:
- » Governance policies
 - » Application based cloud economics
 - » ROI implication over 3 years
 - » Need for DevOps culture
 - » Dependency on automation

Key reasons for workload shift

from cloud back to on-premises:

5,183 breaches, exposing

7.9 B records end of Q3 2019⁶

Bringing your hybrid cloud vision to life

Fujitsu helps you choose the right cloud for your application workloads across edge-core-cloud. Your workloads can be placed wherever they are best suited.

Ideal hybrid solution
