

The Road to Backup Easiness

Fujitsu ETERNUS CS200c

Already benefiting from Fujitsu PRIMEFLEX for VMware vSphere, but backups remain a challenge?

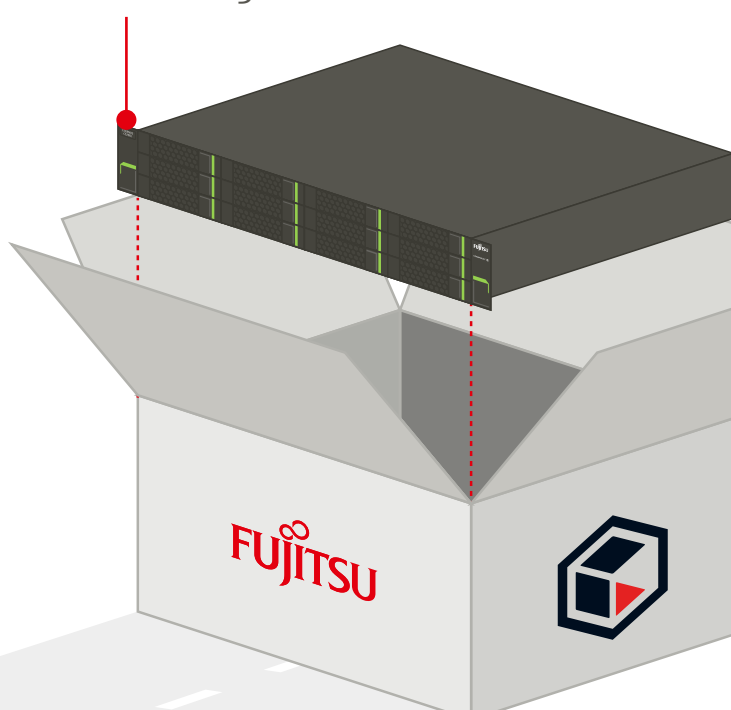

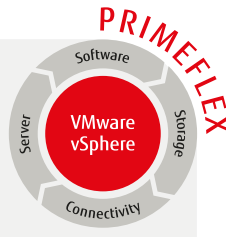

- Traditional backup methods don't fit for VM environment (image-level vs. file-level recovery)
- Limited host/network resources for backup
- Lack of hypervisor integration capabilities
- Manual scripting for VM backups is too complex

Protect your assets the ETERNUS CS200c way!
Out-of-the-box backup for out-of-the-box converged/hyper-converged infrastructures:

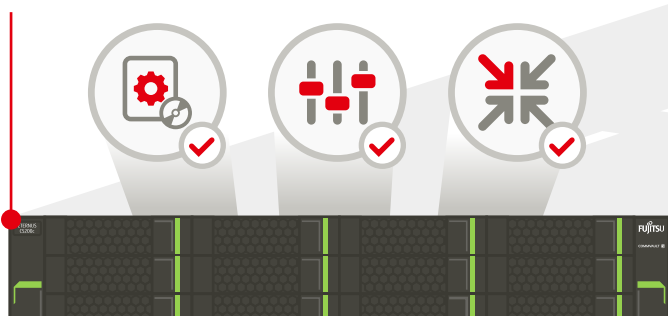

Get fast backup out-of-the-box:
Fujitsu technology plus industry-leading Commvault software

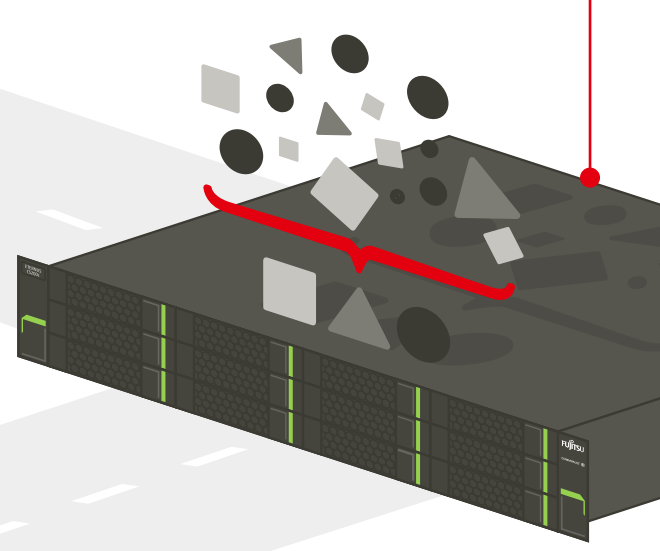

If you have PRIMEFLEX for VMware vSphere – an out-of-the-box solution for virtual IT – just add another box for protecting data and VMs!

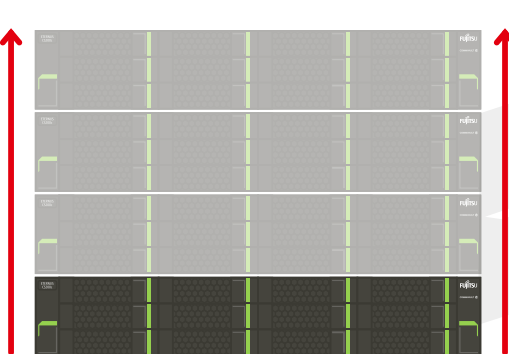

Set it up fast: pre-loaded, pre-configured, right-sized

Optimize your backup:
deduplication reduces storage capacities and costs

Scale with ease:
easy expandable, future proof investment

Supported platforms:
MS, Linux/Unix, VM, SAP, Oracle, Snapshots, Tape, Cloud...

Small or medium-sized enterprise?
ETERNUS CS200c resolves backup challenges in your VM environment!

BENEFITS

...for your IT

Modern VM protection

- No VM goes unprotected – even when VM environment is growing rapidly
- Enterprise hypervisor capabilities in a scalable, automated solution

Application-aware data protection, including databases

- Fulfills highest RTO/RPO demands
- Delta-only backup, more recovery points

Simplified backup and DR

- No need for deep tech skills
- Less complexity, manual failure & data loss

...for your business

Digital business continuity

- Keep business-critical data safe
- No need to halt ops ever!

Digital business efficiency

- Deploy faster: pre-configured & pre-loaded
- No need for deep tech skills: building-block approach

Digital business growth

- Up to 90% less data through deduplication
- Archiving/backup to cloud or tape

ETERNUS CS200c Powered by Commvault Software

Flexible, cost-effective disaster recovery:
Benefit from DR for data from all applications

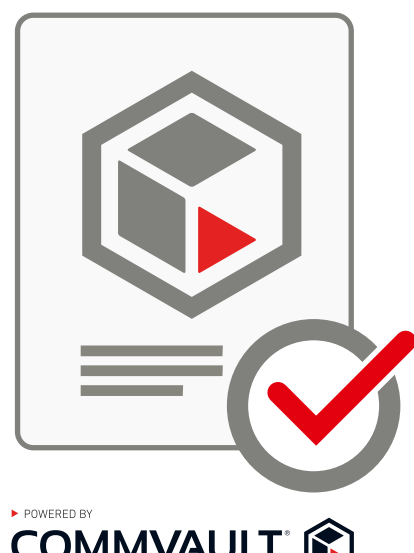

Rich life-cycle management:
Automatically classify, filter, and protect VMs

Automated VM Backup and Recovery:
Protect everything, automatically, with the right policy

Hardware-based snapshot management:
IntelliSnap® technology accelerates application-aware protection of VMs

POWERED BY **COMMAVULT**

ETERNUS CS200c and PRIMEFLEX for VMware vSphere - the winning solution

“Fujitsu has given us a scalable, robust and cost-effective IT platform that safeguards the business for the next five years. It’s faster, easier to manage and makes our users extremely productive.”

Paulo Espirito Santo
DSO Director,
Locarent, Portugal
