super-efficient deployment; from power up to backup in 30 minutes

WHAT ABOUT SOFTWARE LICENSES?

That's not a barrier.
The ETERNUS CS200c Powered by Commvault provides multiple licensing options.

Why Commvault?
 ■ Industry leading Backup and Archiving software [-> MORE INFO](#)
 ■ Single software platform for Backup, Deduplication, Archiving, Disaster Recovery, and more
 ■ Application-consistent snapshot support

"We're always looking for solutions that offer high integration and low maintenance. We also wanted a solution that would be stable and reliable in the long term. Both factors pointed to Fujitsu's ETERNUS CS200c backup storage appliance."

Tobias Berens
Head of IT,
Grundeigentümer-Versicherung WaG

"We've achieved significant time savings of around 30 percent compared to before. The centralized execution of all backups has increased the level of data protection and the performance of the data lines has also improved."

Marco Salvadeo
CIO and Planning & Control Manager,
Novamont S.p.A.
