

Explore the key value of your IT

with ETERNUS DX

FUJITSU

Do not let the storage challenges of the digital world overwhelm you!

Scale the summit with ETERNUS DX

Fast

Reliable

Simple

Affordable

Superior performance by design

Do the same with smaller or fewer systems

Improve capacity utilization up to 90% for improved ROI

Shorten response time with NVMe Extreme Cache in midrange systems

"We needed a powerful, high-capacity storage system that also provided good value for money. That's why we chose the Fujitsu Storage ETERNUS DX600."

Jörn Westermann
Head of Cloud & Infrastructure, noris network AG

You define response-time priorities for your business data. ETERNUS DX allocates the performance accordingly. So your business priorities drive your storage. Not the other way around.

Reliable by conviction

Take Japanese engineering and 80 years IT experience – benefit from data center reliability for EVERY model, from entry-level to high-end

Fast rebuild

90% time savings when restoring disks

Disaster recovery

Flexible DR options (Replication, mirroring, failover) from one ETERNUS DX model to any other model regardless of size and generation

Business continuity

Real-time and automated failover out of the box

Simple by design

What all ETERNUS DX models have in common:

Easy to manage

Intuitive and flexible data management with ETERNUS SF

Highly automated

Automated tiering and quality-of-service management

Family architecture for efficiency and investment protection

- Same components
- Same management software
- Simple upgrades

"Fujitsu has helped us modernize and optimize our storage infrastructure. Thanks to the ETERNUS storage cluster, we are able to provide a highly available infrastructure for our IT services."

Thomas Reichssöllner
Head of Information and Communication Technology, Tauern Medical Center

Affordable by purpose

Proven, excellent price/performance ratio

- Fair licensing model overcomes nasty future surprises: priced irrespective of capacity used
- System upgrades protect investment: reduce costs with automation and ease of use
- Performance architecture enables higher utilization: do more with fewer or smaller systems

"Thanks to Fujitsu, we have taken a giant leap forward in terms of virtualization and system performance."

Stefan Greiner
Head of IT Services, Druckhaus Waiblingen Remstal-Bote GmbH

Become a storage champion. With ETERNUS DX.
