Is your SAP landscape performing to the max?

58% of SAP customers think they can get more out of their SAP solution.

What they expect:

54% Be more efficient
53% Serve customers better
53% Drive Business Continuity

New challenges for IT:
→ Smart data center (business advantage)
→ BI & Analytics

Orchestrates the entire landscape through a single shared (and protected) operating system, and virtualized hardware and software

Works with all IT provisioning models: on premise, managed or hosting service, cloud-based

Centralized SAP Software components are dynamically deployed across physical/virtual resources

Value delivered to customers:
Fujitsu PRIMEFLEX for SAP Landscapes resolves the “better, cheaper, faster, easier” challenge:
