Package Contents List

Check the list of package contents for the purchased product to confirm that no items are missing.
If there is a missing item, contact your sales representative.

Some optional products are shipped after they are installed in the base unit and other optional products are shipped in a separate package without being installed in the base unit.

When an optional product without a "-L" at the end of its product ID is purchased with the base unit, the optional product is installed in the base unit in the factory before shipment.
