

Fujitsu recommends Windows10 Pro.

Our offers for a future-oriented office

FUJITSU Workplace Solutions

Clean Desk 2.0

Ideal for all sectors

- Classic two screen - scenario with flexible arms and monitors
- The perfect flexible, digital workplace
- Modular, retrofittable and non-destructive reversible
- Space saving and flexible positioning thanks to versatile monitor arms
- Only one cable for power delivery and data with a vendor independent USB Type-C
- Monitor arms can be rotated through 90 degrees and can be extended for efficient work

Clean Desk 2.0 Justice

Flexibility and ergonomics at the highest level

- Combination of identical designed touch screen with pull mechanism and standard screen
- "Tablet mode" for a natural reading posture and ergonomic working
- Not only for justice, also perfect for all customers with document handling issues, e.g. banking
- Monitor arms can be rotated through 90 degrees and can be extended for smart variability due to single or double solutions

Clean Desk Easy

Highest quality at lowest price level

- Two monitors scenario with significant costs and space savings
- Integrated USB Type-C port replicator in one of the displays
- Uncomplicated wiring of components and connection of monitors thanks to daisy chaining
- Dual Display Bundle comes without monitor stands

Security - PalmVein

- Authentication based on the vein pattern
- Biometric process with highest security level
- Hygienic and non - invasive
- High degree of application accuracy and flexibility
- Processed in the Clean Desks for highly safe operation

Lighting Concept

- Innovative lighting concept for increased productivity and performance with human centric approach
- Biodynamic light supports the human biorhythm and thus its well-being, as well as its performance
- Flexibility of lighting - light illuminates the workplace where work is being done
- Maximum ergonomics, as the light level can be adjusted individually

Human-centric - perfect in form and functional design

- Focus on the employee as the most important resource
- Perfect synchronisation with individual needs
- Ergonomics in its entirety
- Increase of motivation, performance and well-being
