

Touch and Pen Support

Why a Pen is an Important Tool for Modern Users

FUJITSU

shaping tomorrow with you

Signature

A close-up photograph of a hand holding a black fountain pen with a gold nib, writing a signature on a document. The document contains placeholder text in Latin, such as "Anim laboris culpa deserit commodo elit fugiat magna occaecat esse." and "Esse ea esse." The word "Signature" is printed below a horizontal line where the signature is being written. The background is a blurred document with more placeholder text.

Benefits of Using a Pen

Reduced Cost

- No more cost for paper, postage and filing
- No more printing and filing, leads to less needed office space for that
- More efficient digital workflows

Lower Risks

- Electronic signatures are legally binding
- Improved security and compliance with audit trails and electronic records

Minimized Errors

- Less manual steps
- Mitigation of the risk of human error
- Easy correction if an error happens

Saved Time

- Faster document return time due to a simpler way to sign them
- Gaining activity insights of every stage of signature collection

Improved Relationships

- Better experience for customers, employees and suppliers due to simplified workflows

Natural Writing Experience

- Thanks to writing, sketching and drawing directly on your medium, using a digital pen feels as natural as working with classic pen and ink

Signing

Do you work in **Sales, HR, Insurance** or **Finance**? Or you want to digitize your **patient files, packing lists** and much more?

- Just use your FUJITSU Tablet with pen support to sign your documents easily or authenticate your digital files.

Drawing

You are a **craftsman, designer, student** or an **architect**?

- It wasn't easier before to tag or highlight information on existing (technical) documents or tick off check lists.
- You can take your FUJITSU Tablet with pen support, be creative or draw your spontaneous sketches easily.

Writing

Do you just quickly want to make some **notes** or write down your new **novel** digitally with a **natural writing experience**?

- You can do everything digitally on your FUJITSU Tablet with the help of its pen.

Paperless Offices?

... of employees have the opportunity to use eSignatures.

... of all printings are caused by the need of signing a document.

... of all signatures still happen with classical pen and ink.

The average wasted time by every employee is
4 hours per week for printing, scanning and signing documents.
